

# BONNEVILLE ACADEMY

K-8 STEM School

## Technology Agreement

This agreement applies to any technology device owned by the school. School-owned technology may be loaned only for the period designated on this form. The equipment must be returned on or before the assigned date.

You take sole responsibility for the device and its use during the checkout period, including when you transport it in a personal vehicle or use it during off hours at your home or any other non-work location.

The following conditions must be followed when using the device off campus:

1. Regardless of whether you are at home, a hotel, a restaurant, or anywhere with internet access, you should not browse to sites that would be blocked at school.
2. Do not allow family members or others to use the device for internet browsing.
3. Do not install any personally owned software onto the device
4. If the device is lost, stolen or damaged, the designee is liable. This also applies to transporting of loaned equipment between the school and home of the designee. The school's insurance provider will not cover loss; we will require you to pay for repairs or replacement. You may file a claim through your homeowner's policy if your insurance company denies your claim, you are still financially responsible for the repair or replacement of the device.
5. You may not transport any data on the device that would compromise the identity of others, or put any protected data, passwords, or information at risk. This includes student info that would violate FERPA if the data is accessed by others, or if the device is lost or stolen.

You are expected to keep the antivirus and operating system updated and functioning properly
